- How to kickstart your dream business by “gusting” on virtual stages

LET'S GET STARTED!

The Opportunity

Win Clients Each and Every Time You Make A Guest Appearance On A Virtual Stage...

Being a guest on virtual stages like podcast interviews, virtual networking events and online summits is a great way to spotlight your expertise, creativity, and passion to listeners around the World from the comfort of your home. It's also a fabulous way to turn "ears and eyeballs", "leads" and "prospects" into confidence, clarity and paying clients for your business.

Even better, when you compare the online business tactics to get in front of prospects with consistency, virtual stages are 1.) less expensive in time, money and energy than live speaking and networking that require travel, 2.) less costly than paid ads, and 3.) faster to get results than all of organic content, social media, and complex affiliate or joint venture launches.

Over the past 2-3 years, virtual stages have taken on a greater importance to your online success. Yet, having worked with hundreds of clients over that time period, I see too many coaches, creators and service providers struggling to monetize virtual stages. They suffer from the "LOVE stages, LOST spirit" syndrome - with poor results leaving them feeling like quitting...

The Challenge

Your “Leaky Funnel” Is Costing You Leads, Appointment And Clients (Even If They Love You)...

There is a sneaky problem many of us fall into when we prioritize guest appearances on virtual stages... We forget to ALIGN all the elements of our client acquisition system (there are 5 core elements we teach in our programs) so becoming your client is an easy choice. Or, worse, we forget to have even the most basic system in place to turn listeners or viewers into clients...

These online client acquisition systems are called “funnels”. And, when they get poor results, it’s often for reasons we don’t expect... You have what I call a “leaky funnel”. When your funnel is “leaky”, potential clients have no simple, clear and trustworthy way to become paying clients after experiencing you on a virtual stage - even if they love everything you stand for...

The System

YOUR Definitive Checklist To Monetize Virtual Stages NOW

(Even If Your Past Results Have Been Poor)...

I want you to walk away from this advanced training understanding more deeply how to set up what I call an “aligned funnel”. An aligned funnel does these 4 things:

1. Powerfully positions you
2. Attracts clients with ease
3. Supports your dream business
4. Creates revenue breakthroughs

You will experience viewers and listeners becoming highly committed clients that happily invest in your coaching, online courses, and done-for-you services consulting, and more...
